

## THE SMARTER WAY AROUND TOWN

Light, smart, and easy to ride; it's made to move with your everyday rhythm.

## YOUR EVERYDAY CITY COMPANION

The V1 Electric Bike is designed for the kind of city riding you actually do, i.e., daily commutes, quick errands, and easy rides through busy streets. It's compact, lightweight, and powered just right to make every ride feel smooth and stress-free.

## LIGHTWEIGHT MAGNESIUM ALLOY FRAME

Strong yet light, the frame makes the V1 easy to handle, park, and manoeuvre through traffic.

### Cluster C4 Display

Clear, simple, and easy to read shows speed, battery level, and ride info at a glance.

### Removable Lithium-Ion Battery

Choose between 7.8Ah or 10.4Ah, charge it anywhere, and get back on the road with ease.

### Sturdy Rear Carrier

Adds extra convenience, making every errand easier and more practical.

### 250W Motor & Gears

With a 250W motor and 7-speed Shimano gears, V1 handles everyday city rides with ease.

### Hydraulic Disc Brakes

Designed to deliver reliable stopping power and control in everyday traffic.
